

Bobcat E19

£POA

The Bobcat® E19 compact excavator (mini excavator) delivers impressive performance in confined spaces with the need for only minimal repositioning. The operator can hydraulically retract the undercarriage to a width of only 98 cm in order to travel through gates or between walls and houses, then expand it to 136 cm for a wider footprint and greater performance. The E19 has reduced tail swing for better versatility and manoeuvrability on compact jobsites and the option for zero swing. The optional fingertip-controlled boom offset and auxiliary offer the double benefit of improved controllability of the boom swing function and connected attachments, while
